

# DELAY LLAMA

If you slap this  
Llama, it will slap  
back!

## Delay Llama

The Delay Llama is a tone machine that will become an indispensable part of your sound adding warmth and depth through organic repeats which seamlessly integrate into your playing, courtesy of its BBD chips, faithful reproductions of the Panasonic MN3205.

Its straight forward traditional 3-knob layout is addressed to delay users who are looking to elegantly enhance their hard-earned tone, similarly to how a tape-echo machine would.

The Delay Llama can also be used with bass guitars.

### CONTROLS

- **LEVEL** controls the depth of the repeats on top of your dry signal
- **TIME** sets the delay time
- **REPEATS** sets the amount of repeats
- **Internal trimmer** (blue rectangular trimmer) sets the amount of maximum repeats. Turn clockwise to increase the amount of repeats

### SPECIFICATIONS

- **True Bypass**
- **Works with 9V DC adaptor** (tip-negative)
- **Power consumption:** 45 mA
- **Dimensions** (jacks, pots etc included): 7.5 x 12 x 5.6 cm / 2.9 x 4.7 x 2.2 inches
- **Weight:** 280g / 0.6 lbs.v
