

RATTLER

Rattle your
audience off their
feet!

JAMPEDALS.COM

Rattler Bass

JAM pedals' unabashed distortion monster. We pulled out all the stops to make sure the Rattler will get you all the amazing tones of great early 80s ProCo RAT® distortion boxes and put in the time and R&D to make it more responsive to your playing resulting in an open, dynamic, overdriven tube-amp feel!

Its symmetrical clipping circuit and of course the legendary NOS LM308N chip, the featured star of this design, are the main ingredients of a great recipe resulting in the Rattler shining through any rig, whether modern or vintage.

Enjoy fat and creamy distortion courtesy of the devious snake!

CONTROLS

1. Right footswitch engages the Rattler
2. Left footswitch engages the high-gain-stage
3. LEVEL controls the output level
4. TONE adjusts the tone
5. GAIN sets the gain level
6. MIX sets the blend ratio between the clean and overdriven signal

SPECIFICATIONS

1. True Bypass
2. Works with 9V DC adaptor (tip-negative)
3. Power consumption: 18 mA
4. Dimensions (jacks, pots etc. included): 7.5 x 12 x 5.6 cm / 2.9 x 4.7 x 2.2 inches
5. Weight: 300g / 0.66 lbs.
