

RIPPLE

Our homage to 2-stage phasing.

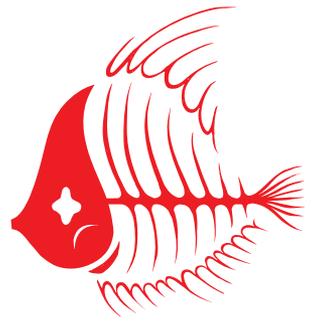

JAMPEDALS.COM

Ripple

The Ripple is an homage to 2-stage phasing.

It offers a truly unique, deep “vibey” tone, that we are extremely proud of!

Breathe new life into your funky percussive grooves, enhance arpeggiating parts with deep “vibey” modulation, or max it out to animate quirky passages.

The Ripple performs equally well before and after overdrive pedals. One may not encounter 2-stage phasing circuits so often these days, but we believe in its sincerity and straight-forwardness so much we are proud to include it as the JAM pedals offering in the genre.

CONTROLS

1. **SPEED** controls the speed of the modulation

SPECIFICATIONS

1. True Bypass
2. Works with a 9V battery or 9V DC adaptor (tip-negative)
3. Power consumption: 9 mA
4. Dimensions (jacks, pots etc. included): 11.1 x 7 x 4.8 cm / 4.3 x 2.7 x 1.8 inches
5. Weight: 215g / 0.47 lbs.

"I've been enjoying the Ripple a great deal. It's got a really mellow phase tone that doesn't overtake the sound of the guitar."

James Sedwards
(Thurston Moore band)
