

# *Tubedreamer*

The overdrive all tubes dream of.

JAMPEDALS.COM

## Tubedreamer

Back when we originally introduced the Tubedreamer there weren't as many 808 style pedals out there. We claimed then as we claim now; this is probably the best 808 style overdrive you can get your hands on!

With a carefully tuned, added midrange frequency register, the Tubedreamer delivers warm and rich overdriven sound through any amp. A pivotal difference between the Tubedreamer and other Tubescreamers, is our choice to go with 3 diodes for asymmetrical clipping instead of symmetrical, enhancing the responsiveness of the pedal to fretting and picking nuances.

Made with carbon comp resistors, the Tubedreamer employs the legendary JRC4558D chip to deliver its classic sound, just like in the original, sought-after 808's, and also introduces a wider gain range accessible by the high-gain-stage toggle-switch.

### CONTROLS

1. LEVEL controls the output level
2. TONE adjusts the tone
3. GAIN sets the gain level
4. Toggle - switch selects between high (right) and normal (left) gain stage

### SPECIFICATIONS

1. True Bypass
2. Works with a 9V battery or 9V DC adaptor (tip-negative)
3. Power consumption: 8 mA
4. Dimensions (jacks, pots etc. included): 11.1 x 7 x 4.8 cm / 4.3 x 2.7 x 1.8 inches
5. Weight: 230g / 0.5 lbs.

"A natural amp-like overdrive that responds really well to picking dynamics and is endowed with plenty of clarity so that every note in a chord rings true."

**GUITARIST magazine**

"I'm back on tour now and have the Tubedreamer with me in my pedalboard."

**Bill Frisell**

"The Tubedreamer is truly a dream to play! Its touch response is incredible; it just feels Good to play. I welcome it to my arsenal."

**Kirk Fletcher**
